

Final Conference of the project “Baltic Energy Areas – A Planning Perspective”

“Renewable energy and spatial planning: challenges and future perspectives”

January 29-30, 2019 Riga/Jelgava, Latvia

Baltic Energy Areas – A Planning Perspective (BEA-APP) project brings together two perspectives: spatial planning as well as regional energy policy. The project has focused to the capacity building of regional actors by:

- providing adjusted spatial planning instruments targeting renewable energy development;
- developing innovative stakeholder involvement methods and financing systems to increase social acceptance through local ownership;
- applying the developed measures to pilot cases, studying the features of suitable renewable energy production sites and, thereby, setting the scene for concrete projects.

We invite you to participate in the Final Conference of the BEA-APP project to learn about its main results and outcomes and to network with other projects and initiatives dealing with renewable energy and spatial planning.

Outline of the conference programme

Tuesday, January 29, 2019 Venue: AVALON HOTEL & Conferences, 13. Janvara str. 19, Riga, Latvia https://hotelavalon.eu
